

Welcome to TWPStain.com! TWP® stands for "Total Wood Preservative" and has been manufactured by Gemini Coatings for over 20 years. TWP® Exterior Wood and Deck Stain is registered as a EPA Wood Preservative and is manufactured using only the highest quality of raw materials. Offering Superior Protection from UV discoloration, rotting, and water, TWP® Wood Care and Deck Stain can be used on virtually any exterior wood surface.

- Stains the Wood for color - Seals the Wood for protection
- All Decking Wood - Cedar, Redwood, ACQ, IPE, Mahogany, Pressure Treated Pine, etc
- Cedar Shake and Roofing Shingles
- Natural Wood Fences
- Timber Framed Homes such as Log Homes and Cedar Sided Homes

New to TWP's family of wood coatings is the LOW VOC Formula: [TWP 1500 Series](#) The new TWP® 1500 formula is designed to penetrate better, dry faster and outperform the previous TWP® 500 series formula.

TWP® 1500 Series is an EPA registered wood preservative which prevents structural damage and wood decay on exterior above ground wood surfaces such as untreated or previously treated fencing, decking, wood siding, log homes and roofing. TWP® 1500 Series resists water absorption that causes warping, cracking and splitting as well as preventing freeze damage in colder climates.

Brand New! Wood Deck Cleaner and Brightener Kit [Gemini's Restore-A-Deck Restoration Kit](#)

Restore-A-Deck Cleaner and Brightener system is a powerful "eco-friendly" two part restoration system. Consisting of a *Step 1 Wood and Deck Cleaner that deeply cleans your wood and a Step 2 Wood Brightener* that "brightens" the wood while neutralizing the cleaner.

New to Gemini's family of wood coatings is the environmentally friendly [Storm-Shield](#)[®]

STORM SHIELD® is a unique combination of resins and pigments that enhances the natural beauty and warmth of old and new wood. The 100% acrylic system makes it user friendly, environmentally safe and easy to clean up with soap and water.

STORM SHIELD® provides superior water repellency and maximum protection from premature loss of color, surface mildew and water absorption. Powerful ultraviolet light screening chemicals reduce unsightly graying and loss of natural color.
